

# Also Opening

## **Chom Chom**

This new Canterbury concept-restaurant lets diners select their own ingredients to be cooked in front of them. Directed by head chef Saira Sapkota, the live-cooking experience is designed to give customers more choice in what they eat. The pick 'n' mix selection of ingredients are separated into stir-fry and pasta categories, but those looking for more established combinations are also catered for with European, Indian, Chinese and Thai favourites also featuring.
